AMENDMENT

In response to the last Office Communication mailed on 12/8/2008, please amend the above-identified application as following.

IN THE CLAIMS:

A: Please amend the claims as follows:

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

1. (Currently amended) A method for isolating mesenchymal stem cells from bone marrow aspirate, comprising:

(a) providing a cell mixture comprising mesenchymal stem cells and other cells in a culture medium, said ~~the~~ culturing medium containing factors that stimulate MSCs growth without differentiation and allowing for the selective adherence of only the mesenchymal stem cells to substrate surface;

(b) seeding and culturing the cell mixture in a culture device comprising an upper plate with pores and a lower plate base, said ~~the~~ upper plate, made of the mesenchymal stem cell adhering material, where mesenchymal stem cells adhered and are cultured, and the lower plate base, where the other small-sized cells adhered following passing through the pores in the upper plate; and
